Objective:

- To understand that creativity is providing novel and relevant solutions to problem
- To enhance the ability of generating innovative ideas
- To understand that how innovation and creativity are related with each other
- To encourage a structured approach to tackling challenges and to stimulate creative thinking
- To understand the process of problem solving and creative thinking

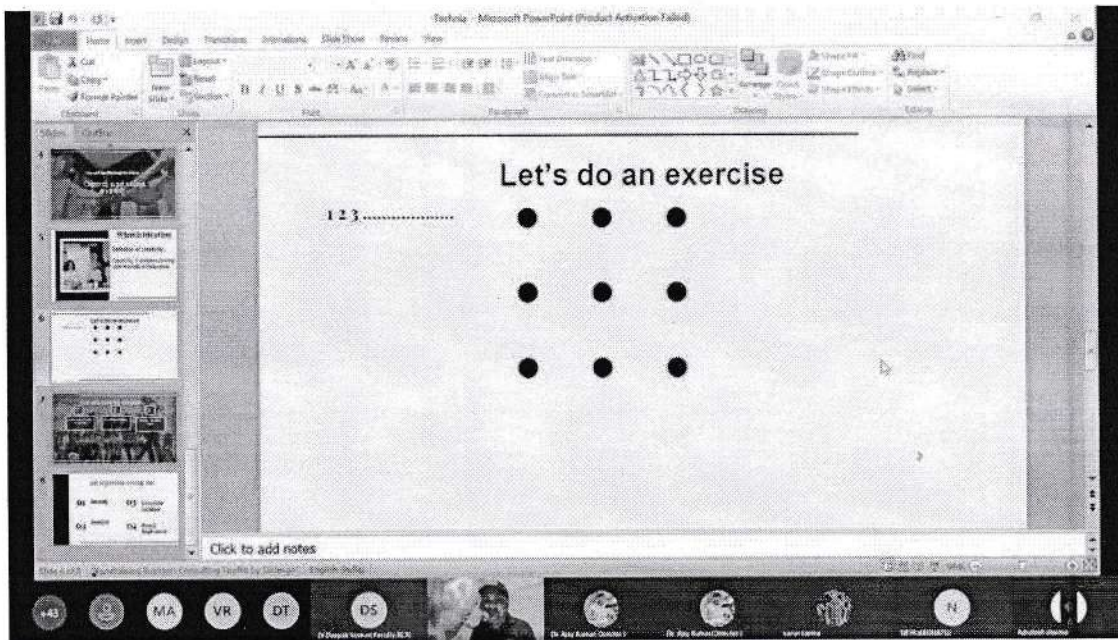

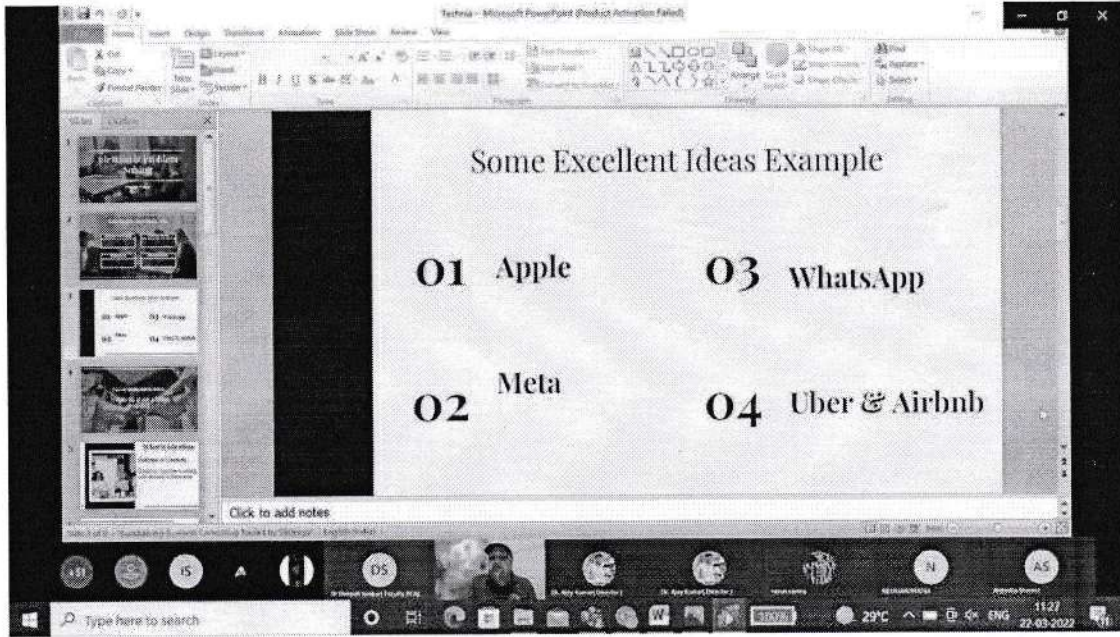

Report:

An online workshop was organised by IIC TIAS under the ambit of Capability Enhancement Scheme on 21.03.2022 from 11 AM onwards. The topic was Problem Solving and Ideation. The speaker for the session was Mr. Anurag Dubey, Human Capital Transformation Consultant. The speaker described the attendees about entrepreneurship, enterprise, entrepreneur and intrapreneur. He discussed that innovation is highly related to disruption technology. He defined some excellent examples of ideas developed by the some of the top companies like Apple, Meta, WhatsApp, Uber and Airbnb and made *the attendees realized that creative solution to problems can really make wonders. He described that the creative solutions address the pain points of customers and innovate around it.* He discussed that creativity is skill, not the talent as we perceive normally and also that it can be nurture. He described it with examples and made the attendees realized that thinking and deliberating out of the box often leads to innovation. He described that creativity is problem solving with novelty and relevance. He said that when solving a problem 4 or 5 thoughts or idea come at once but few thoughts and idea only arise after apause and thinking towards the problem; often such ideas are innovative. He discussed that one can be creative by continuous practice and taking good care of physical health. He said a sound sleep makes the person more attentive and composed and the person is able to apply creativity and innovation to the problem more effectively. He gave tips on problem solving and asked the attendees to follow four steps- identifying the problem, analysing it, generating solutions to the problem, planning and implementing the plan. Earlier Dr. Ajay Kumar, Director, TIAS spoke about the innovation and Ideation and its importance and Dr. Nivedita, Head Training and Placement Cell and In Charge IIC welcomed everyone and introduced to the students about the speakers and objective of the workshop. The one hour session was well oragnized and well received by the students. The session ended with vote of thanks by Dr. Nivedita and feedback collection.

Learning Outcome:

- Students will able to understand that creativity is providing novel and relevant solutions to problem
- Students will able to understand innovation and creativity are related after attending the webinar
- Students will able to empower with the skills to think critically and creatively when confronted with challenges
- Students will able to solve complex problems by learning various problem-solving techniques and strategies
