Report on "Greening Our Future: Plantation Drive" — NSS Outreach Activity

Title of Activity	Greening Our Future: Plantation Drive
Values	Environmental Stewardship, Sustainability, Health and Well-being
Learning Outcomes	<ul style="list-style-type: none"> • Students were encouraged for proper maintenance and preservation of trees together with other vegetation. • Students were made aware to uplift the quality of the living environment through active planting and afforestation. • This event set an inspiring example for the coming generations to save and plant more trees.
Objectives	<ul style="list-style-type: none"> • To help participants grasp the critical role of trees in reducing carbon footprints, improving air quality, and enhancing urban biodiversity. • To educate volunteers and participants on the correct techniques of planting trees and maintaining them to ensure their survival and growth. • To promote awareness about sustainable living practices, including the benefits of growing trees and reducing pollution through community action. • To inspire local residents, especially students, to engage in more environmental conservation activities and adopt eco-friendly practices in their daily lives. • To help participants understand their role in protecting the environment and motivate them to take ownership of their local natural spaces.

Report:

A plantation drive was organized by Tecnia Institute of Advanced Studies, Rohini area of Delhi on 14th August 2019. John Keats once said "The poetry of the earth is never dead", students of Tecnia Institute of advanced studies inculcate this perspective and in order to save earth from global warming and human deeds like afforestation students planted trees in their campus area and the surroundings.

Tree Plantation: The participants planted in the designated areas. These species were chosen for their adaptability to the local climate and ability to enhance the biodiversity of the region.

Student Participation: Students from various departments actively participated, not only planting saplings but also taking responsibility for nurturing them. The students expressed enthusiasm for their role in contributing to environmental preservation, seeing this as a hands-on learning experience.

Students brought different types of saplings and planted them in the campus and near by area in the society. Plants are important part of nature and for survival also. Dr. Sheetal Badesra convener of the event said "We get oxygen and other components from nature which are necessary to survive so we should celebrate and thank mother earth and nature to give us so manythings, its our duty to at least plant trees in return and maintain sustainable development for the upcoming generations.

The "Greening Our Future" plantation drive was a resounding success. Through the active involvement of students and community members, the event not only helped increase green cover but also cultivated a sense of environmental responsibility among the participants. This outreach activity stands as a testament to the collective power of small actions towards a greener and more sustainable future.

The NSS Unit plans to organize more such initiatives in the future, aimed at fostering environmental awareness and community service.

The special invitees of this event were Dr. Ajay Kumar (Director TIAS), Dr. Monisha (Chair Students Welfare) and all the Departmental Heads with the respective faculty members of TIAS.
