

Value Added Course
Session 2021-22
Advance Certification in Photography

Preface:

The course comprises of different units each of which focuses on training you about a specific aspect of photography. The course is designed to offer a perfect balance between practical learning and theoretical concepts taught in the classroom. This provides you an in-depth understanding of the various factors that can affect the quality of your images and also about the challenges that you are likely to face while clicking the most impressive pictures. The world of photography is full of different practices, aesthetics, genres and techniques; there are as many photographic styles as there are photographers! It is therefore a very diverse landscape and fascinating to explore, to say the least. After you have learnt the fundamentals of photography, such as camera technique, the basics of composition, posture or Lightroom software, it will quickly be possible to follow a more advanced level of training, or develop an interest in more specific subjects.

Duration: 30 Hours

Timing: 01:00 - 03:00 P.M.
/ 04:00 - 06:00 P.M.

Resources Person:

Dr. Shivendu Kumar Rai

Learning Outcomes:

- Students would learn to master their Technical Skills.
- Students would cultivate a unique artistic voice and develop the ability to create visually captivating images.
- Students would gain a deep understanding of composition principles and explore advanced techniques.
- To acquire advanced knowledge and skills in working with natural light, artificial lighting, and different lighting setups.
