Report: Description in (min 250 to max 800 words)*

Entrepreneurship and innovation are two common concepts in the political discussion and are often mentioned as conditions for economic growth and sustainable development. At the same time, there is some uncertainty with regard to what is actually meant by the terms and what the connection between them looks like. There are several parallel perspectives that lead to various conclusions regarding the public sector's role and opportunities of affecting development in these areas. The aim of workshop is to make students aware about start-up and entrepreneurship, to encourage and motivate them for entrepreneurship, which will boost their inner urge for becoming self-employed in future, to be job creator rather than job seeker. Workshop will make students aware about entrepreneurial practices going on in corporate world that would be shared by young entrepreneurs and trainer. It provides them with deeper understanding of start-ups and their complexities and educates students about how innovation helps entrepreneurs to fight and sustain competition.

Expert session-I began with talk of Mr. Paritosh Anand enlightened students with grass root knowledge about the ways to start up and how to evaluate and Use Internet in business start-up. His
