<p>Report: Description in (min 250 to max 800 words)*</p>	<p>It was organized by Dr. Reema Sharma, HOD, Department of Management Sciences, Tecnia Institute of Advance Studies. The session was started with the welcome address given by Dr. Richa, Associate Professor, Sharda University. She explained that successful leaders are made not born. She has interacted with many company professionals around Delhi NCR and the General Consensus. During the session students asked questions from the resource person and resolve their doubts related to society misconception. She describes the obstacles organizations and leaders are facing, and the importance of having the right leadership talent to embrace these challenges and create new opportunities for growth and profitability. She discussed about different technologies that the future leaders can use</p>

	<p>which further impact the business organization. She focused on the need to adopt according to circumstances and creates a diverse team to pursuit of excellence in professional, personal, and social life of future leader. She discussed about Industry 4.0 in which the next rapidly advancing industrial revolution, knocks on our door. The emergence and increasing sophistication of connectivity, automation, big data, artificial intelligence (AI), and additive manufacturing elements are driving a shift that continually asks our industry to evolve and push the envelope to reveal new technologies and processes that will help propel humanity – and the world – forward. She reveals the capabilities needed to navigate through this complex global and local terrain. Finally, she shares development best practices and tips for current senior leaders, human resource leaders, and next-generation leaders. Approximately 37 Students attended session successfully. This interactive session was informative, full of learning and was much appreciated by the students. The one-hour session was well coordinated and was well received by the students.</p>
