Department of Management Sciences (BBA)

Report

On

Experiential Learning

Subject	: Management Processes and Organizational Behaviour (101)
Date	: 8 th December, 2022
Venue	: Mother Dairy Plant, Fazalpur, Saraswati Marg, Delhi
Department	: Department of Management sciences
Faculty In charge	: Dr. Sheenu Arora, Department of Management Sciences, TIAS
Participants	: 26 Students

Objectives:

- Enhance Practical Understanding: The primary goal was to deepen students' understanding of theoretical concepts through direct exposure to industrial practices.
- Industry Insight: Provide students with insights into the functioning of industries, their challenges, and opportunities.
- Networking: Create opportunities for students to interact with industry professionals, fostering networking and potential future collaborations.
- Career Exploration: Allow students to explore potential career paths within the industry and understand the skills and competencies required.

Execution of Activity:

- Industry Selection: A thorough analysis was conducted to select a relevant industry aligned with the students' curriculum.
- Logistics and Planning: Detailed planning included obtaining necessary permissions, arranging transportation, and ensuring safety protocols.

- c. Guided Tour: The visit comprised a guided tour through different departments, providing a comprehensive overview of the production process, quality control, and other relevant aspects.
- d. Interactive Sessions: Facilitated Q&A sessions and interactive discussions with industry experts to encourage active participation and engagement.
- e. Experience: Where possible, students were given hands-on experiences to apply theoretical knowledge in practical scenarios.

Learning Outcomes:

- a. Enhanced Understanding: Students gained a deeper understanding of theoretical concepts, witnessing their practical applications.
- b. Real world Context: Exposure to the industrial setting allowed students to connect textbook knowledge to real world scenarios, making learning more contextual.
- c. Networking Skills: Interactions with industry professionals improved students' networking skills and provided valuable insights into potential career paths.
- d. Career Clarity: The visit helped students in clarifying their career goals by showcasing the variety of roles and responsibilities within the industry.
- e. Problem solving Skills: Observing how challenges were addressed in real time honed students' problem solving skills, encouraging a proactive mindset.

Conclusion:

The industrial visit successfully met its objectives, providing students with a holistic learning experience. The firsthand exposure to industrial processes, coupled with interactions with professionals, not only enriched their academic knowledge but also inspired them to think critically and strategically about their future careers. This experiential learning opportunity played a pivotal role in bridging the gap between classroom education and the dynamic realities of the industry, preparing students for a seamless transition into the professional world.
