Students spreading awareness about cleanliness and hygiene among villagers at Nangli Poona.	

Report: Description in (min 250 to max 800 words)*

In alignment with the vision of **Swachh Bharat Abhiyan** and the institutional commitment towards social responsibility and community development, **Tecnia Institute of Advanced Studies** organized a **Campaign to Clean India** on **04 May 2026** at **Village Nangli Poona**, commencing at **11:00 AM onwards**. The campaign aimed to create awareness among villagers regarding cleanliness, sanitation, personal hygiene, and environmental responsibility.

The activity was conducted under the guidance of **Dr. Shalini Gupta** and witnessed enthusiastic participation from **18 students**. Rather than undertaking a cleaning activity, the focus of the campaign was on educating and motivating community members to adopt clean and hygienic practices in their daily lives.

Prior to the awareness drive, students were briefed about the objectives of the campaign and the importance of community participation in maintaining cleanliness. Students then visited different areas of the village and interacted with local residents, emphasizing the significance of proper waste management, the use of dustbins, and maintaining hygienic surroundings.

During the campaign, students conducted group discussions and interpersonal interactions with villagers, highlighting how cleanliness contributes to better health, disease prevention, and environmental sustainability. They encouraged residents to avoid littering, segregate waste whenever possible, and actively participate in keeping their surroundings clean. Special emphasis was placed on educating children and youth about developing cleanliness as a daily habit.

The villagers responded positively and actively engaged in discussions. The awareness campaign helped reinforce the message that maintaining cleanliness is a shared responsibility and that small individual actions can collectively create a significant positive impact on society and the environment.

The activity provided students with valuable experiential learning opportunities by enabling them to engage directly with the community. It strengthened their communication, leadership, teamwork, and social responsibility skills while fostering a deeper understanding of grassroots-level awareness initiatives.

The campaign successfully achieved its objectives by promoting awareness regarding cleanliness and sanitation among community members. It contributed towards creating a sense of civic responsibility and encouraged villagers to participate actively in maintaining a clean and healthy environment.

Overall, the **Campaign to Clean India** at **Village Nangli Poona** was a meaningful and impactful outreach initiative that supported the goals of **Swachh Bharat Abhiyan** and reinforced the values of cleanliness, sustainability, and community participation. The activity reflected the institution's commitment to nurturing socially responsible citizens and contributing towards a cleaner and healthier India.

	The activity had a positive social, environmental, and educational impact. It contributed to improved cleanliness in the selected area and raised awareness among the public regarding waste management and sanitation. The drive fostered environmentally responsible behavior and encouraged collective action for community well-being. From a sustainability perspective, the initiative aligned with: • SDG 3 – Good Health and Well-Being, by promoting hygiene and preventing health risks • SDG 6 – Clean Water and Sanitation, by reinforcing sanitation awareness • SDG 11 – Sustainable Cities and Communities, through community participation • SDG 12 – Responsible Consumption and Production, by encouraging waste segregation and reduction The Clean India Drive organized by Tecnia Institute of Advanced Studies was a meaningful and impactful initiative that successfully promoted cleanliness, environmental awareness, and civic responsibility. The enthusiastic participation of students reflected the institution's dedication to value-based education, social engagement, and sustainable development. The activity not only contributed to cleaner surroundings but also helped shape responsible citizens who understand the importance of hygiene, sustainability, and collective action. The Clean India Drive stands as a significant step toward building a cleaner, healthier, and more sustainable society.
