Students Clean the Premises

Students after collecting waste and awareness to use dustbins

Report: Description in (min 250 to max 800 words)*

In alignment with the national vision of **Swachh Bharat Abhiyan** and the institutional commitment toward social responsibility and sustainable development, **Tecnia Institute of Advanced Studies** organized a **Clean India Drive** at **Bhagwan Mahavir Marg, Sector 14, Rohini**, commencing at **01:00 PM onwards**. The initiative aimed to promote cleanliness, environmental awareness, and civic responsibility among students while contributing positively to the surrounding community. Cleanliness is a fundamental aspect of public health, environmental sustainability, and quality of life. Recognizing its importance, the institution actively encouraged student participation in community-based cleanliness initiatives that translate awareness into meaningful action. The drive served as a practical platform for students to understand their role in maintaining public hygiene and protecting the environment.

The Clean India Drive was conducted with the following objectives:

- To promote awareness about cleanliness, sanitation, and hygiene
- To encourage responsible behavior toward public spaces
- To instill environmental consciousness and sustainable practices among students
- To support the objectives of **Swachh Bharat Abhiyan**
- To foster civic responsibility, teamwork, and community engagement
- To align institutional activities with **United Nations Sustainable Development Goals (UNSDGs)**

The activity was organized under the guidance of faculty members and institutional coordinators. Prior to the drive, students were briefed on the significance of cleanliness in ensuring public health, preventing disease, and improving environmental quality. Instructions regarding safe waste

handling, segregation of waste, and disciplined conduct during the activity were provided.

The location, **Bhagwan Mahavir Marg in Sector 14, Rohini**, was selected due to its regular public use and the need for awareness regarding cleanliness and proper waste disposal. Necessary cleaning materials such as gloves, waste bags, and basic sanitation tools were arranged to ensure safe and effective participation.

The **Clean India Drive** commenced at **01:00 PM**, with enthusiastic participation from students of Tecnia Institute of Advanced Studies. Students actively engaged in cleaning the roadside areas, footpaths, and nearby public spaces along Bhagwan Mahavir Marg. Waste materials such as plastic wrappers, paper waste, and other litter were collected systematically.

Special emphasis was placed on **segregation of waste**, creating awareness about biodegradable and non-biodegradable materials. Students worked collaboratively in teams, ensuring that the activity was conducted efficiently and responsibly. Throughout the drive, participants maintained discipline and demonstrated a strong sense of civic duty.

The activity also served as an awareness initiative, as passersby and local residents were encouraged to adopt clean habits and avoid littering in public spaces. The visible involvement of students created a positive impression and reinforced the message that cleanliness is a shared responsibility.

Student Participation and Learning Experience

The Clean India Drive provided students with a valuable **experiential learning opportunity**. By actively participating in the cleanliness activity, students gained first-hand exposure to real-world environmental challenges and the importance of community participation in addressing them.

The drive helped students develop:

- A sense of responsibility toward public property
- Awareness of environmental sustainability and sanitation practices
- Teamwork, leadership, and cooperation skills
- Respect for cleanliness as a daily habit rather than a one-time activity

The initiative encouraged students to reflect on their individual roles in maintaining hygiene and inspired them to adopt cleaner and more sustainable practices in their personal and professional lives.

The Clean India Drive successfully achieved its intended outcomes. Students demonstrated increased awareness of cleanliness, hygiene, and environmental protection. The activity reinforced the importance of maintaining clean surroundings and highlighted the role of youth in supporting national cleanliness initiatives.

Participants developed a stronger sense of civic responsibility and showed willingness to continue contributing to similar social and environmental initiatives in the future. The drive also strengthened the institution's engagement with the local community.

	The activity had a positive social, environmental, and educational impact. It contributed to improved cleanliness in the selected area and raised awareness among the public regarding waste management and sanitation. The drive fostered environmentally responsible behavior and encouraged collective action for community well-being. From a sustainability perspective, the initiative aligned with: • SDG 3 – Good Health and Well-Being, by promoting hygiene and preventing health risks • SDG 6 – Clean Water and Sanitation, by reinforcing sanitation awareness • SDG 11 – Sustainable Cities and Communities, through community participation • SDG 12 – Responsible Consumption and Production, by encouraging waste segregation and reduction The Clean India Drive organized by Tecnia Institute of Advanced Studies at Bhagwan Mahavir Marg, Sector 14, Rohini, was a meaningful and impactful initiative that successfully promoted cleanliness, environmental awareness, and civic responsibility. The enthusiastic participation of students reflected the institution's dedication to value-based education, social engagement, and sustainable development. The activity not only contributed to cleaner surroundings but also helped shape responsible citizens who understand the importance of hygiene, sustainability, and collective action. The Clean India Drive stands as a significant step toward building a cleaner, healthier, and more sustainable society.
