Report: Description in (min 250 to max 800 words)*

The vision of **Viksit Bharat** emphasizes inclusive growth, youth empowerment, innovation, social responsibility, and sustainable development. Recognizing the crucial role of youth in shaping the future workforce and economic landscape of the nation, **Tecnia Institute of Advanced Studies (TIAS)**, in association with the **UBA Club**, participated in the **Outreach Program** titled “**Viksit Bharat Yuva Connect**” held on **21 November 2025** at the **Atal Auditorium, GGSIPU**. The program served as a national-level platform to connect young minds with India’s development agenda, particularly focusing on employability, entrepreneurship, and innovation-led growth.

The outreach activity aimed to sensitize students toward their responsibilities as **future professionals, innovators, and contributors to economic development**. Emphasis was laid on the role of youth in nation-building through skill development, education, ethical work practices, entrepreneurship, and community engagement. The program encouraged students to align their academic learning and career aspirations with national goals related to productivity, employment generation, and sustainable economic progress.

Under the guidance of **Dr. Shalini Gupta**, students from TIAS actively participated in awareness sessions and interactive discussions conducted during the event. The sessions highlighted key themes such as **youth leadership, employability skills, innovation-driven growth, ethical**

	professionalism, and the importance of continuous learning. Special focus was given to preparing youth for decent work opportunities and enabling them to adapt to the evolving demands of the economy. The participation of four students from Tecnia Institute of Advanced Studies provided valuable exposure to diverse perspectives shared by academicians, policymakers, industry experts, and youth leaders. Students gained insights into how informed decision-making, skill enhancement, ethical conduct, and entrepreneurial thinking contribute to sustainable economic growth. The event also motivated students to actively engage in internships, skill-based initiatives, and community outreach programs that enhance employability and productivity. The activity strongly reflected the Mulya Pravah value of Global Citizenship, as students were encouraged to think beyond individual success and recognize their role in contributing to inclusive economic development. The discussions reinforced the idea that responsible and skilled citizens play a vital role in strengthening the nation's workforce and ensuring equitable growth. The program aligned with UN Sustainable Development Goal 8 – Decent Work and Economic Growth, which focuses on promoting sustained, inclusive, and sustainable economic growth, productive employment, and decent work for all. By encouraging youth participation in skill development, innovation, and ethical professional practices, the initiative contributed to building a competent and responsible workforce capable of supporting national development. The outcomes of the outreach activity were significant and meaningful. Students developed a clearer understanding of the Viksit Bharat vision and the central role of youth in achieving economic progress. The program enhanced students' awareness of career preparedness, leadership, entrepreneurship, and social responsibility. Participation in the event also strengthened communication skills, confidence, adaptability, and a sense of purpose among students. In conclusion, the Viksit Bharat Yuva Connect outreach program was a valuable learning experience that successfully connected youth aspirations with national economic development priorities. The activity reinforced the institution's commitment to value-based education, skill development, youth empowerment, and holistic growth. Such initiatives play a crucial role in nurturing employable, innovative, and socially responsible citizens who actively contribute to building a developed, inclusive, and economically strong India.
